Make	:	Bibliotheca
Installation type	:	Hardware / Software
RFID Gate IP address	:	172.27.6.229 / 255.255.250.0 -permanent campus 172.27.6.226 /255.255.255.0 – Transit campus

Details for Selfcheck 500 Kiosk -

Product Name	:	Selfcheck 500
Product Code	:	SCK500000 (RFID Kiosk White Windows 10 64 bit)

Make	:	Bibliotheca
Installation type	:	Hardware / Software
Serial No Selfcheck's / IP address	:	B20621 / 172.27.6.228 –Permanent campus B20627 / 172.27.6.225 –Transit campus
Software Version	:	QCI 2.4
System Manager URL	:	http://localhost/SystemManager
Credentials	:	<Shared with Library Team>

Details for Staff Station –

Product Name	:	RFID Workstation Shielded
Product Code Model	:	STF000017-000
Make	:	Bibliotheca
Installation type	:	Hardware / Software
Quantity	:	02 Number
Serial Number	:	Device 1 -8660002,8697651 Device 2-8660001, 8697653
Software Version	:	Staff Connect Conversion 3.51.002.0 Staff Connect Circ 1.63.003.0
Staff connect conversion/Cric admin password	:	<Shared with Library team>

Library Connect License Details -

Customer	:	IISER Tirupati
Customer Key	:	rt-a5RqDhJMAp1cZlt
Secret Key	:	api-id-nhncdybe021a8b3030264d6e88249eda8d76feb2
API ID	:	lcppmouw5m7bfqc5dxvyr4h7fg25d7szeei5jhfdygjzymggus
URL	:	https://www.mysmartadmin.com
User Login and Password Details	:	<shared with Library Team>

Integration with Koha (SIP Details-)

```
SIP2 server /port      :
SIP Credentials       :
```

Branch/Institution Code :

Note: Integration is not completed as the SIP2 is not implemented. It will be done once the institution provides the above mentioned details of SIP2 service.

Commissioning Testing Criteria

Unit Test Criteria	Feature		Comments with Description
	OK	N/A	
Programming of tags	OK		
Circulation Testing	OK		
Book Detection Testing	OK		

- Product Functionality Testing and Training has been completed.
- Please make sure Port 10001, 10010, 80, 443, 8080, 6001 and 8023 must be open to allow and software to communicate across the network firewall. Port 4001 (and Port 4002 for auto-discovery) must be open to allow TCP and UDP traffic, if required.
- Please do not allow users to change the RFID Parameters / Cables Settings. Changes in parameter may affect the work functionalities.

Acknowledgement

We confirm that we have received the above-stated deliverables in good condition. We have verified the successful installation and operation of the RFID Hardware Solution and affirm that it is working to our satisfaction. We have also been trained on the use and operation of the RFID Hardware.
